Simply give the package to your mail carrier or drop it off at any U.S. Post Office or collection box. *Please note:* Service not available for Canadian or international orders; or large or bulky items. How to measure for the right fit.

We want you to be confident that the size you select is the size that will fit — the first time. And the key to a proper fit is knowing your measurements.

Neck: Measure around base of the neck (the lowest point of the neck). The number of inches equals the neck size.

Bust/Chest: With arms relaxed down at sides, measure fullest part of bust/chest, keeping tape parallel to the floor.

Arm: Bend arm to 90°. Place hand on hip. Start at center back of neck, measure across the shoulder to the elbow and down to the wrist. Number of inches equals your sleeve length.

Waist: Measure around your waist, where you normally wear your pants — keep tape a bit loose.

Rise: Start the tape at your natural back waist, run the tape between your legs, pulling comfortably at the crotch and up to your natural waist. Total measurement is your rise.

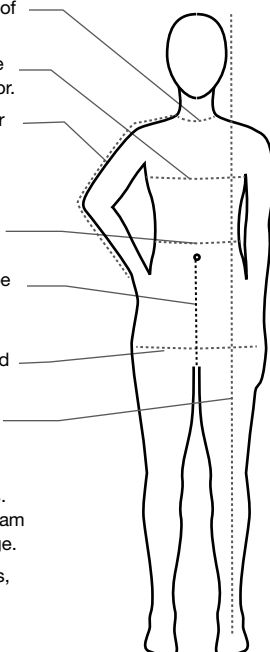

Hip: Stand with heels together, keeping tape straight and parallel to the floor. Measure around fullest part.

Height: Stand in stocking feet, with feet together, back to a wall. Measure from crown of head to the floor.

Inseam: Take a pair of pants that fit you well. Lay them flat. Measure from the crotch seam to bottom of pants. Number of inches (to nearest 1/2) = inseam length. We inseam free! Add 1/2" for 100% cotton pants to allow for shrinkage.

Belts: Measure over waistband of your best-fitting pants, running tape measure under belt loops.

Hats: Measure around head with tape above eyebrow ridges. Convert inches to hat size using chart.
